

# LIQUID-TIGHT 90° CONNECTOR

## INSULATED THROAT – ZINC DIE CAST

### Description:

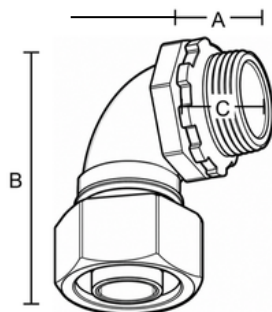

Designed to terminate liquid-tight flexible metallic or nonmetallic Type B conduit at a box or enclosure through a compact 90-degree entry.

- **Material:** Zinc Die-Cast
- **Type:** 90° Compression Connector
- **Conduit:** LFMC/LFNC Type B
- **Application:** Liquid-tight conduit to box or enclosure

### VELKOR TIP | Compact Direction Change

Align the elbow before final tightening so the conduit follows a relaxed bend path.  
Insulated throat helps protect conductors from abrasion at the fitting entry.  
Compression construction supports a sealed conduit entry when installed with the specified conduit and enclosure.

| VELKOR<br>ITEM NO. | SIZE   | A (in.) | B (in.) | C (in.) |
|--------------------|--------|---------|---------|---------|
| 491                | 1/2"   | 2.220   | 2.340   | 0.520   |
| 492                | 3/4"   | 2.550   | 3.550   | 0.680   |
| 493                | 1"     | 2.820   | 3.785   | 0.670   |
